

ENTROTERRA

2026

The Autumn 2026 Menu tells the story of the Campania region as seen from its hinterlandfrom Nola. It is a journey that begins in the mountains, where fruits, vegetation, herbs, and spices become the heart of my cuisine.

I have often asked myself what tradition truly is. It is a word we frequently use to describe what we know, what is familiar to us. Yet, the deeper I delve into the subject of gastronomy, the more I realize that it is we ourselves through our own choices who give shape to tradition.

For what may seem unknown to us today could, tomorrow, become part of our historysomething we learn to recognize, to cherish, and, ultimately, to call tradition.

Francesco Mancuso
